

Maxtreat 4004

General Statement

Maxtreat 4004 is a water treatment chemical mixture intended for industrial applications.

Chemical Identification

▶ **Products Name**

Maxtreat 4004

▶ **Chemical Identity**

Mixture

Uses and Applications

Common uses of the product are industrial water treatment.

Physical / chemical properties

Property	Value
Physical State Appearance	Viscous liquid
Water solubility	Soluble
pH	Less than 8
Color	pale yellow to yellow liquid

Health Effects

The product is not classified, according to the Globally Harmonized System (GHS).

Environmental Effects

Avoid subsoil penetration. Discharge into the environment must be avoided. Do not allow to enter sewers/ surface or ground water.

Exposure

▶ **Human Health**

The product is only used for industrial purposes; therefore, consumer exposure is not relevant and does not need to be assessed for this product. For worker, follow appropriate Risk Management Measures to control risk of exposure.

▶ **Environment**

No environmental impact

Risk Management Recommendations

All personnel should be adequately trained for general handling of chemicals. Wear appropriate PPEs. Ensure adequate ventilation & observe the usual precautions for handling chemicals. Avoid direct contact with the substance. Handle in accordance with good industrial hygiene and safety practice. Avoid prolonged or repeated exposure. Avoid exposure to moisture. Keep away from food materials. Keep away from heat and sunlight. Keep away from source of alkalis, anionic polymers. Do not store in metal containers. Use in a well-ventilated area. Store in a cool enclosed place. Avoid repeated freeze thaw cycles. Wash hands & skin following contact. If the product gets into your eyes, rinse eyes thoroughly for 15 minutes with tap water and seek medical attention, consult the doctor immediately.

Accidental Release Measures

▶ Spill Containment

Avoid spills and prevent material from entering water bodies.

▶ Clean-up Procedure

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use protective equipment during clean-up. Dispose of in accordance with local regulation.

Regulatory Information/Classification and Labelling

▶ Regulatory Compliance

The product is not classified, according to the Globally Harmonized System (GHS). This product is not REACH registered

Classification and Labelling

GHS/CLP Classification	Not classified
Hazard Pictogram	Not classified
Signal Word	Not applicable
Hazard Statement	Not applicable
Precautionary Statements	Wash hands thoroughly after handling. Do not touch eyes. Wear protective gloves/protective clothing/eye protection/face protection/hearing protection. IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing Get emergency medical help.

Conclusion

Workers handling this product must use protective gear, and facilities must implement safety protocols to avoid accidents and appropriate Risk Management Measures should be selected and applied to control risk of exposure Also, this product has no supported uses in direct consumer products
