

# Maxtreat 7015

## General Statement

Maxtreat 7015 is a water treatment chemical mixture intended for industrial applications.

## Chemical Identification

▶ **Products Name**

Maxtreat 7015

▶ **Chemical Identity**

Mixture

## Uses and Applications

Common uses of the product are industrial water treatment.

## Physical / chemical properties

Property	Value
Physical State Appearance	Liquid
Water solubility	Soluble
Color	Clear

## Health Effects

The product is not classified, according to the Globally Harmonized System (GHS).

## Environmental Effects

Avoid subsoil penetration. Discharge into the environment must be avoided. Do not allow to enter sewers/ surface or ground water.

## Exposure

▶ **Human Health**

The product is only used for industrial purposes; therefore, consumer exposure is not relevant and does not need to be assessed for this product. For worker, follow appropriate Risk Management Measures to control risk of exposure.

▶ **Environment**

No environmental impact

## Risk Management Recommendations

All personnel should be adequately trained for general handling of chemicals. Wear appropriate PPEs. Ensure adequate ventilation & observe the usual precautions for handling chemicals. Avoid direct contact with the substance. Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or smoke when handling. Avoid contact with skin / eyes. Avoid prolonged or repeated exposure. Wash hands thoroughly after handling. Keep ignition sources away. Do not smoke. Keep respiratory protective device available. Keep container tightly sealed. Avoid repeated freeze – thaw cycles. Store away from incompatible materials and foodstuffs. Store in a cool enclosed place. Keep only in the original container. Keep receptacle tightly sealed. Wash hands & skin following contact. If the product gets into your eyes, rinse eyes thoroughly for 15 minutes with tap water and seek medical attention, consult the doctor immediately.

## Accidental Release Measures

### ▶ Spill Containment

Avoid spills and prevent material from entering water bodies.

### ▶ Clean-up Procedure

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use protective equipment during clean-up. Dispose of in accordance with local regulation.

## Regulatory Information/Classification and Labelling

### ▶ Regulatory Compliance

The product is not classified, according to the Globally Harmonized System (GHS). This product is not REACH registered

## Classification and Labelling

GHS/CLP Classification	Not Classified
Hazard Pictogram	Not Classified
Signal Word	Not applicable
Hazard Statement	Not applicable
Precautionary Statements	Wash hands thoroughly after handling. Do not touch eyes. Wear protective gloves/protective clothing/eye protection/face protection/hearing protection. IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing Get emergency medical help.

## Conclusion

Workers handling this product must use protective gear, and facilities must implement safety protocols to avoid accidents and appropriate Risk Management Measures should be selected and applied to control risk of exposure Also, this product has no supported uses in direct consumer products
